Subject: Canyon Creek Plaza and Gas station

Hello John and Rebekah,

As a mother of 2 young children and being an original resident of Bel Aire for 14 years now I want to voice my opinion on the proposed opening of the gas station/car wash/convenience store. I vehemently oppose the construction of the gas station in spite of the convenience it offers. I drive mu kids around a lot and have no problem filling gas at a station on my way to or from school and work.

My reasons are many of the ones you have already heard - environmental impact, reducing the beauty of the area, more traffic in what is a residential area and more people coming to our neighborhood that has seen a string of robberies and crimes. There is so much opposition to this gas station that Ed will probably land up closing it because most residents will not patronize it.

Thank you for recording my comments.

Best,
